# JACKY CHUK HAN LEE

**SOFTWARE & AUTOMATION DEVELOPER**

647-992-8849
jclee8849@gmail.com
Portfolio | GitHub | LinkedIn

## PROFESSIONAL SUMMARY

Software and automation developer with hands-on experience implementing internal business tools, ERP/CRM integrations, workflow automation, data-quality improvements, and AI-assisted prototypes. Experienced working across existing codebases, contributing targeted features, supporting production systems, and communicating technical information to non-technical users.

## CORE SKILLS

**Languages:** TypeScript · JavaScript · Python · SQL · HTML/CSS

**Frameworks & Data:** React · Next.js · Node.js · PostgreSQL/PGlite · SQLite · Docker · Git/GitHub

**ERP & Integrations:** Acumatica · Zuper · Google APIs · REST APIs

**Automation & AI:** Business process analysis · Workflow automation · LLM agents · System integration · Production support

## PROFESSIONAL EXPERIENCE

### Junior Automation Specialist (Software & ERP Systems)

**Oct 2025–August 2026**

MeadowBrook Construction Inc. · Mississauga, ON

- Analyzed purchasing, estimating, and accounting processes and implemented 4 Acumatica approval workflows for purchase orders, project quotes, change orders, and requisitions, reducing turnaround time from days to multiple hours.
- Support business workflows spanning sales, contracts, procurement, dispatch, projects, invoicing, and customer/vendor operations, developing an understanding of how changes in one process can affect downstream departments and ERP records..
- Developed a 5-part AI-assisted estimating MVP combining LLM-agent workflows, pricing logic, and human review to turn drawings into structured scopes and review-ready estimates, reducing work from 1 business day to 30 minutes.
- Implemented idempotent Google Sheets-to-quote upserts, validated assembly mapping and cost allocation across 4 trades, and supported downstream PDF generation, reducing time spent from multiple hours to 1.
- Created Acumatica Generic Inquiries with calculated fields and controlled aggregations to improve the accuracy of operational reports.
- Support Acumatica production issues and integrated business processes, investigating synchronization failures, incorrect transactions, and system behavior that could affect downstream operations.
- Containerized applications with Docker, maintained GitHub workflows, and provided technical demonstrations and hands-on training for field technicians.

### Senior Engineering Outreach Program Instructor

**Dec 2024–Oct 2025**

Ontario Tech University · Oshawa, ON

- Delivered 50+ STEM and engineering workshops to more than 1,000 students across multiple age groups.
- Coordinated workshop activities and communicated with students, instructors, and parents in a high-volume educational environment.
- Used Excel to coordinate team communications and securely track student medical information and parent-provided notes.
- Prepared and maintained program information while adapting instruction and activities to different student groups.

### Coding Instructor

**Aug 2024–Dec 2024**

Code Ninjas Markham · Markham, ON

- Led and mentored 20 students aged 8–15 in coding activities, supporting teamwork and individual development.
- Prepared daily progress reports covering behavior, academic development, and coding-concept mastery.
- Communicated student progress and provided individualized support based on observed needs.

## ACADEMIC PROJECT

### Capstone Project Manager

**Sep 2023–May 2024**

Vehicle and People Identification from Drone Footage Using Machine Learning

- Managed a team of four developers, delivered scheduled progress reports to the faculty advisor, and supported the team in meeting project deadlines.
- Managed CMS packages and integrated backend APIs with the frontend interface.
- Achieved more than 75% vehicle and pedestrian identification accuracy and stored extracted results in MongoDB.

## EDUCATION & CERTIFICATION

**Bachelor of Engineering, Software Engineering (Honours)**

Ontario Tech University

**Microsoft Certified**

Azure AI Fundamentals · Aug 2023
